

MOHAMMAD HASIB

JUNIOR FULL STACK DEVELOPER

Chittagong, Bangladesh | +8801997858226 | mohammadhasib9827@gmail.com
[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

CAREER OBJECTIVE

Detail-oriented Junior Full Stack Developer with strong core JavaScript problem-solving skills, engineering scalable web applications using React, Next.js, and Node.js. Aiming to secure a full-stack role within a growth-oriented company where I can address real-world challenges, optimize web performance, and contribute to continuous team success.

SKILLS

Technical Skills: React 19, Next.js (App Router), TypeScript, JavaScript (ES6+), Node.js, Express.js, MongoDB, RESTful APIs, Mongoose, Better Auth, Tailwind CSS, Framer Motion, HTML5, CSS3

Tools & Platforms: Zustand, Nodemailer, Git, GitHub, Postman, Vercel, Netlify, VS Code, Firebase

Interpersonal Skills: Problem Solving (Loops & Logic), Fast Learner, Team Collaboration, Communication

PROJECTS

Project Name: NeuroDesk – AI-Augmented Productivity Workspace

[Live Link](#) | [GitHub Repository](#)

Description:

Engineered an elite, high-performance productivity workspace that unifies granular task hierarchy, multi-layered calendars, and contextual AI processing into a centralized dashboard system.

Key Features:

- **AI-Powered Strategy Planner:** Converts complex objectives into structured, custom prompt-driven execution schedules to automate step-by-step task prioritization.
- **Unified Multi-Workspace Management:** Provides a hierarchical organization pipeline supporting granular project structures alongside integrated user invitation and collaboration access controls.
- **Track Your Progress:** Track progress, organize priorities, and stay updated with real-time workspace activity.

Tech Stack:

Next.js, React 19, TypeScript, Tailwind CSS, Framer Motion | Node.js, Express | MongoDB, Mongoose | Better Auth

Project Name: Levenverse – Online Shoe Shop In Qatar

[Live Link](#)

Description:

Architected a production-ready dynamic digital storefront maximizing catalogue visibility, persistent checkout systems, and management flows for an online retail marketplace.

Key Features:

- **Smart Shopping Experience:** Browse products by category with smooth filtering and real-time UI updates for a fast and intuitive shopping flow.
- **Instant Cart System:** Add or remove items instantly with a persistent cart that keeps your selections across sessions.
- **Powerful Admin Dashboard:** Secure admin panel with full control to add, update, and delete products, manage inventory, and handle store operations efficiently.

Tech Stack:

Next.js, React, Tailwind CSS, Daisy UI | Node.js, Express.js | MongoDB, Mongoose | Zustand, Nodemailer

EDUCATION & COURSES

Programming Hero — Full Stack Web Development

2026

Batch 13 Certification training focusing heavily on building end-to-end web applications and modern JavaScript ecosystems.

LANGUAGES

Bengali: Native or Bilingual Proficiency

English: Professional Working Proficiency / Intermediate
